MATH GAMES

NUMBERS 11 - 20

THANK YOU!

Thank you for purchasing this resource. I hope you enjoy the activities and find them useful in your classroom. If you have any questions about the resource, please send me an e-mail or message me on Instagram or Facebook so I can help.

My goal is to provide you with high-quality, easy-to-use activities that you can easily incorporate into your classroom.

It truly makes my day to see how you are using this resource in your classroom. I'd love for you to send me a picture via e-mail or message me on social media. If you share a picture on social media, please tag me so I can check it out! You can also join our free Facebook group for teachers and share a picture there!

If you like this resource, please leave a review and let other teachers know. I read every review!

Be sure to follow my TPT store to stay updated on new products and product updates.

About this resources

To prepare the game mats, print on cardstock and laminate for durability.

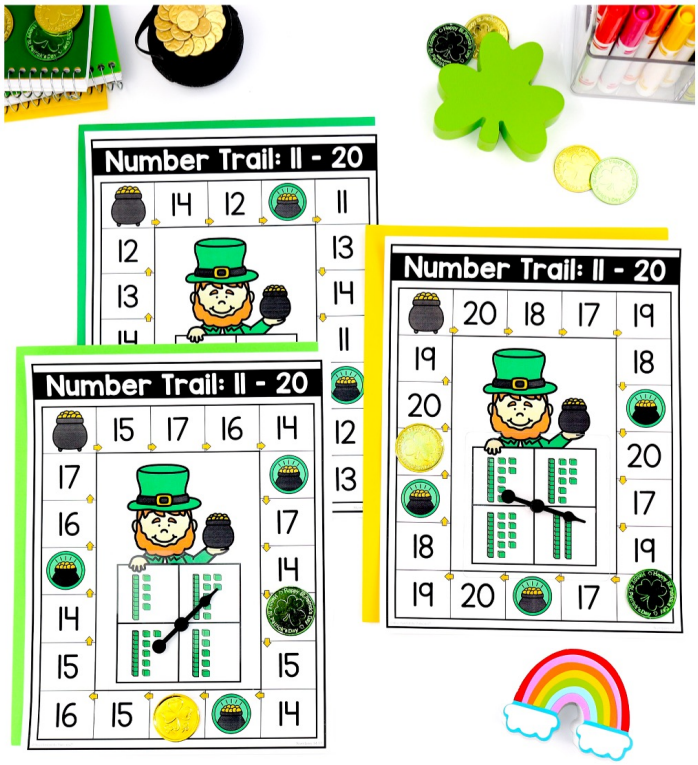

Students will need a game piece such as a mini eraser or plastic cube for this activity. They will also need a plastic spinner or a paperclip and pencil to make a spinner.

This game can be played independently or with a partner. It works great as an early finisher activity, math center, or morning tub.

Students will start on the pot of gold. They will spin the spinner and identify the number. They will move their game piece to the nearest space with the matching number. The gold coins are free spaces.

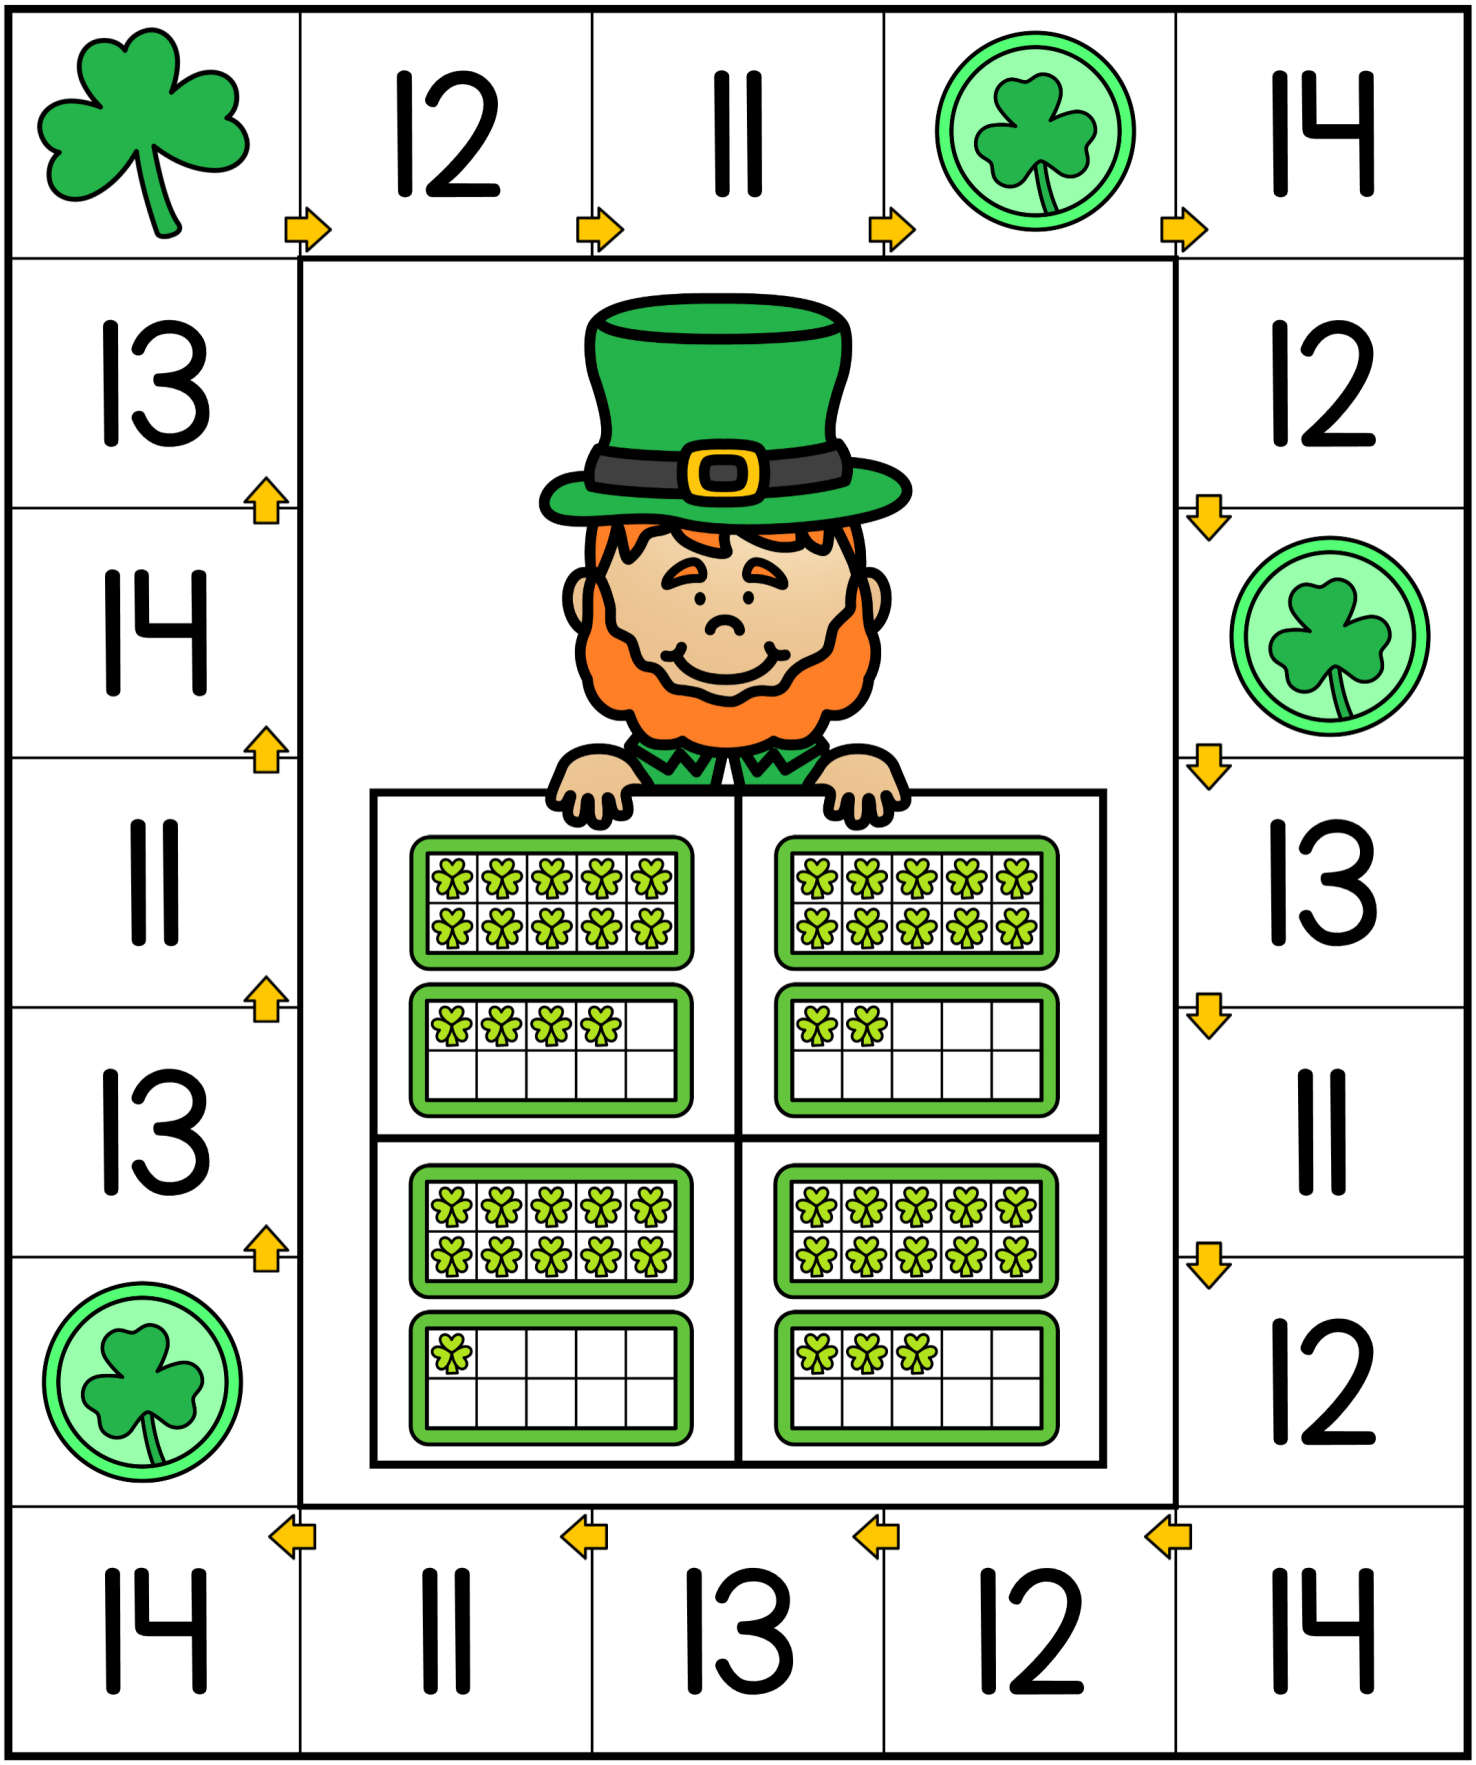

The first player to make it back to the pot of gold is the winner. To win the game, the player must spin the exact number needed to reach the pot of gold.

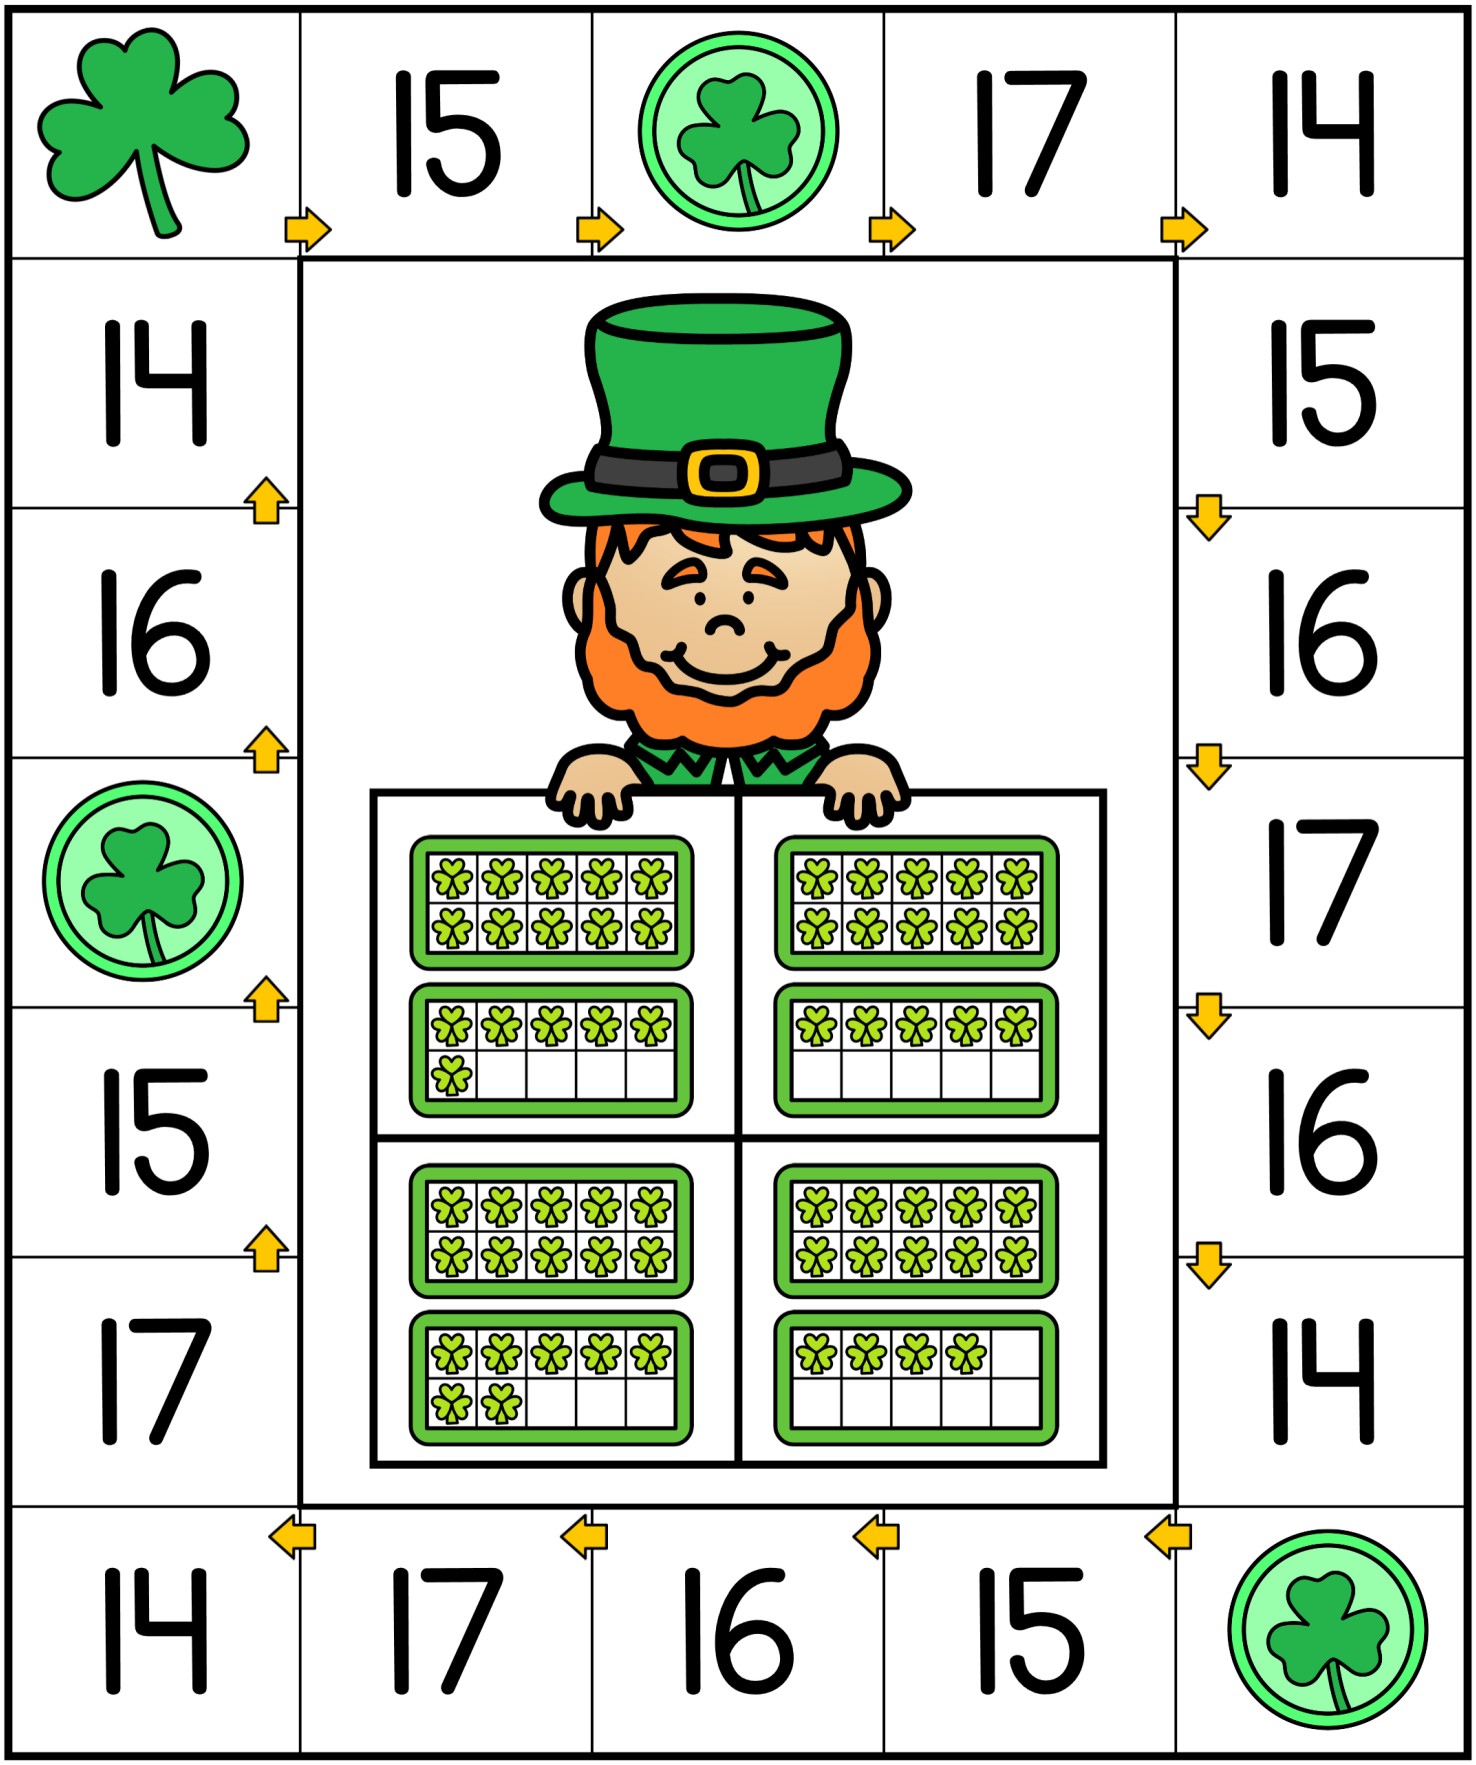

If playing with a partner, to decide who goes first, have each student spin the spinner. The player that spins the larger number goes first.
