FIND AND COLOR LETTERS

This resource was designed to help students practice letter identification and matching uppercase and lowercase letter pairs. Students will also work on fine motor skills as they color to create a picture.

There are 52 no prep pages included in this Find and Color Letters resource. Each picture makes an uppercase letter. You can choose to have your students look for lowercase letters to match the uppercase. Or for a simpler version, have students look for the matching uppercase letter.

The lowercase matching version begins on [page 4](#). The uppercase matching version begins on [page 30](#).

Students select two colors to create their own personal color code. They will color the two crayons at the top of the page to show their color code.

Students will look at each space and identify the letter. They will use their color code to color each space.
