

SOUND MAZES

Beginning Sounds

Created by The Printable Princess

About this packet...

To prepare the activity print the mazes and laminate or slide in a page protector. Students will need plastic cubes, mini erasers, or other small classroom manipulatives to cover the pictures as they work through the maze.

Students will start at the race car and end at the stop sign. Students will say the name of each picture to determine the beginning sound. They will cover the pictures that begin with the focus letter.

It is a good idea to use this activity in a teacher led group before having students work on the mazes independently.

[Answer keys begin on page 34](#)

Letter Sound Mazes

Students will identify the focus letter and the sound. Students will start at the race car and end at the stop sign. Students will say the name of each picture to determine the beginning sound. Using manipulatives, they will cover the pictures that begin with the focus letter.

Answer Keys

Optional answer keys

Suggested use: Print and slide in page protector with corresponding beginning sound maze. Make sure the maze and answer key are back to back. Students work on the maze and then flip the page protector over to check their work.
