

MATCH THE SOUND

Beginning Sounds

6 themed sets included

Created by The Printable Princess

About this packet...

This packet includes 6 different beginning sound matching card themes and two optional recording sheets. You can use these cards as a literacy center, a whole group or small group pocket chart activity, or partner cards for students. Picture names for all activities can be found on page 6.

To prepare this packet, print, cut, and laminate the activity cards and print the recording sheet, if using. Students can use a pocket chart to match the letter card to the picture card or complete this activity on the floor.

If using this activity for partner cards, set aside enough letter and picture cards so that each student will receive one. Pass out a card to each student. Half of the students will have a letter card, the other half will have a picture card. Students will find the student with the matching card and will be paired up as partners.

Match the Sound

Students will identify the letter sound and find the corresponding picture card. They will match the letter card to the picture card.

An optional recording sheet is included for students to record and draw some of their matches.

Three recording sheets titled "Match and Draw" are shown. Each sheet has a "Name:" field and a "Directions" section. The first sheet has a grid of six boxes, each with "begins with ____" and a small illustration of a child with pencils. The second sheet has a grid of four boxes, each with "begins with ____" and a small illustration of a child with pencils. The third sheet has a grid of six boxes, each with "begins with ____" and a small illustration of a child with pencils.
