The Printable Princess

Step 1 – Students determine the beginning sound of each picture to create a CVCe word. Next, they read the word that they created and blend it together to identify the CVCe word.

Step 2 – They find the corresponding CVCe picture and match it to the secret code mat.

Step 3 – (Optional) Students record the CVCe word and draw a picture to match.

This activity makes a great word work center, morning tub activity, or fast finisher project. It can most definitely be used without the recording sheet option.

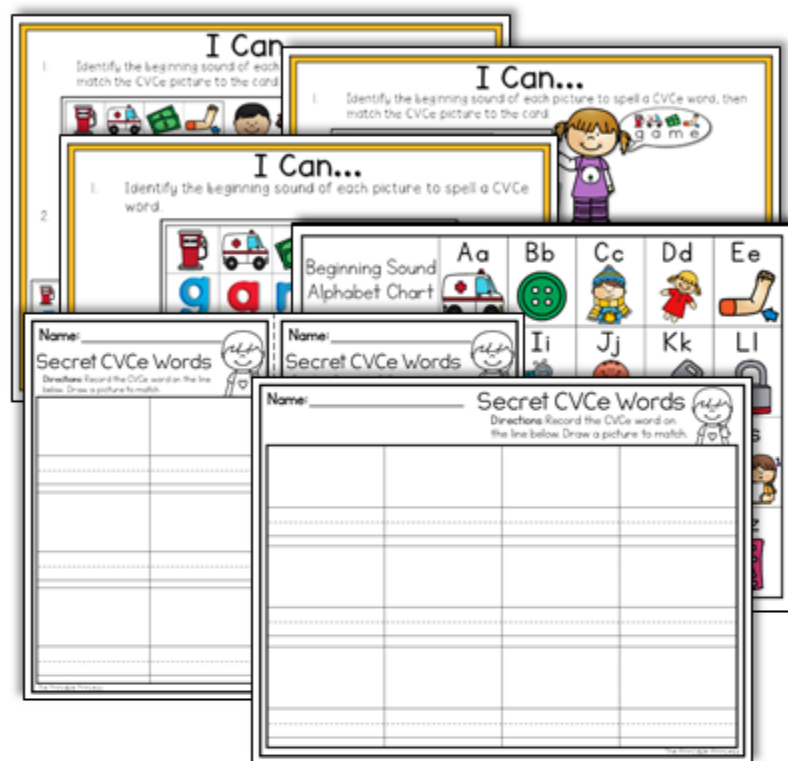

# Secret CVCe Words

**Prep Work:** Print, cut, and laminate the activity cards and picture cards. Print and laminate the "I Can" visual directions page. (Note: There are three different "I Can" pages included.) Print and laminate the "Beginning Sound Alphabet Chart". Print the recording sheet, if using (two options included).

**Directions:** Students will identify the beginning sound of each picture to spell a CVCe word. They use dry erase markers or magnetic letters to spell the word on the activity mat then they will match the picture card to the CVCe card.
