- mixed long u words - tune, tube, huge, fume	<a href="#"><u>55 - 56</u></a>

# CVCe Graphing

Students will count each set of pictures on the graphing mat. They will color the graph to show the total of each picture. They will use their graph to answer questions and then spell the CVCe words on the paper.

**Tip:** For students who need extra support, have them place a plastic math cube or mini eraser over each picture they are counting. This will help them know which pictures they have already counted. Once they are finished counting the object, they remove the counters and start again with the next picture.

**CVCe Graphing**

Directions: Use the picture mat to fill in the graph and answer the questions below.

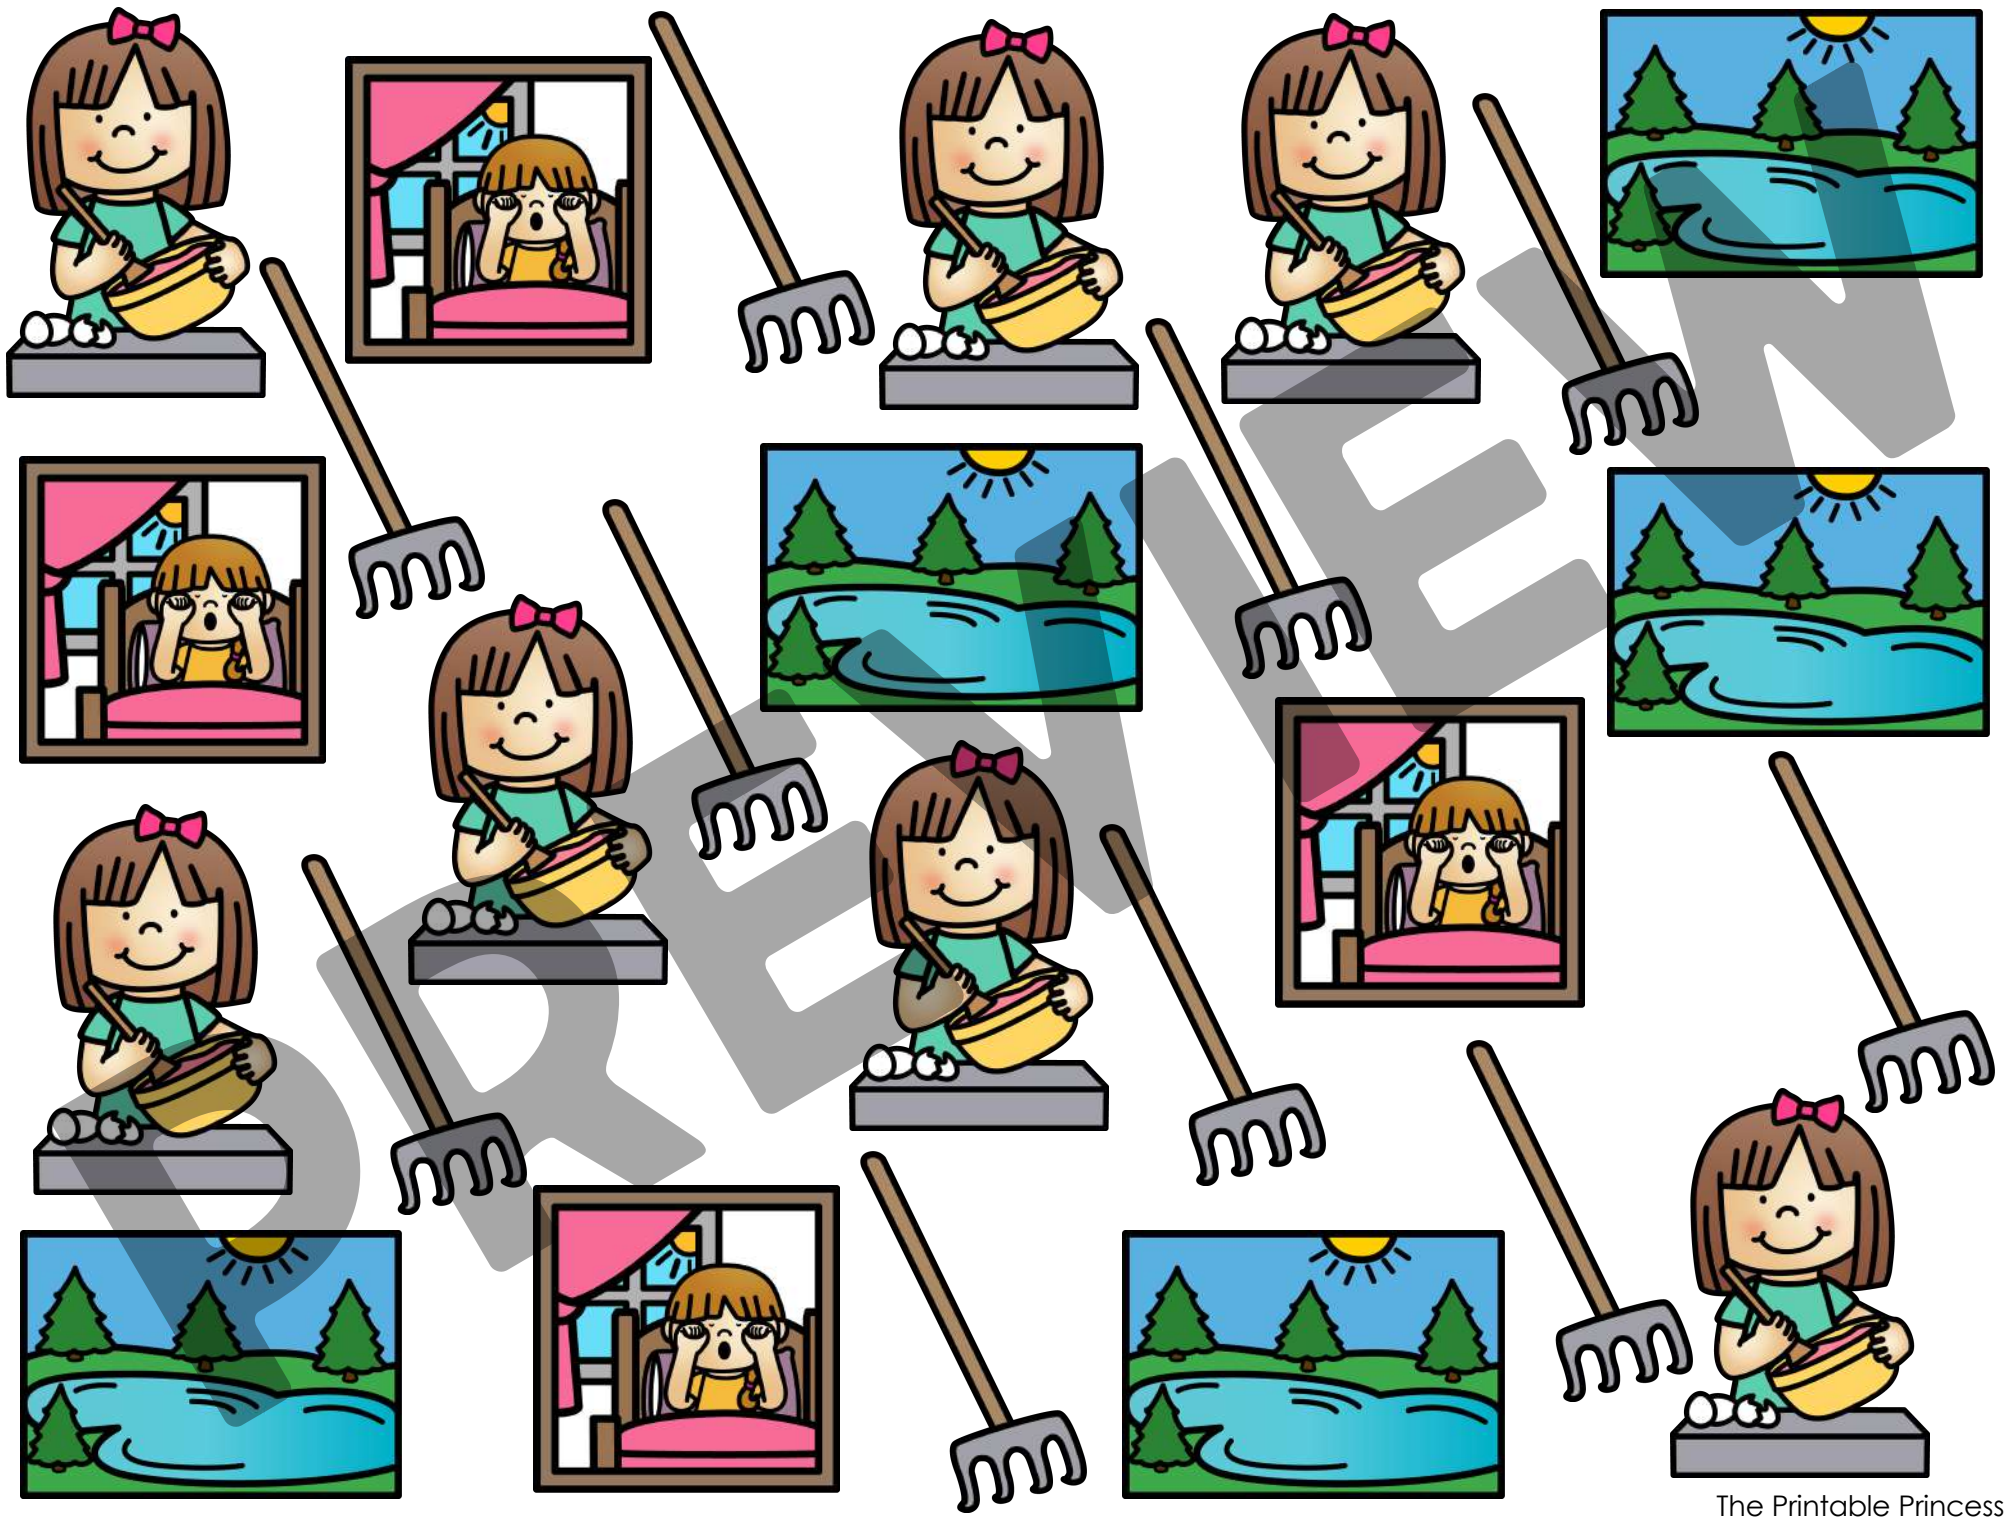

Color the picture that has the most.

Color the picture that has the least.

Write each word in the spaces below.

	lime
	mime
	time
	dime
