About this resource...

Prep Work: Print, cut apart, and laminate the activity cards. Print the corresponding recording sheet, if using. You can use this activity with or without the recording sheets.

Note: There are six sets included. To help keep you organized, all cards in the set have the same kid clipart image and have the set number written in the upper left corner. The recording sheet also includes the corresponding set number.

Directions: Students will read the CVC word in the box on the left. They will change the middle short vowel sound to spell the picture name in the middle box. They will use magnetic letters or a dry erase marker to show the new word on the right side of the card. To record their answers, they will find the matching picture on the recording sheet and write the new word next to the picture.

Answer keys can be found on pages 6 and 7. Additional no prep practice pages can be found on pages 38 - 43.
