

CRACK THE CODE

ADDITION & SUBTRACTION

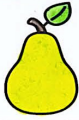

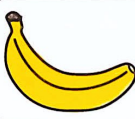

Addition

Name: _____

Crack the Code

Directions: Use the code to create an addition sentence and solve.

| | | | | | | | | | | |
|---|---|---|---|---|--|---|---|---|---|---|
|  |  |  |  |  |  |  |  |  |  |  |
| 0 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |

| | | |
|--|--|--|
|  +  $2 + 7 = 9$ |  +  $1 + 6 = 7$ |  +  $9 + 1 = 10$ |
|  +  $3 + 2 = 5$ |  +  $5 + 5 = 10$ |  +  $0 + 10 = 10$ |
|  +  $8 + 0 = 8$ |  +  $3 + 1 = 4$ |  +  $4 + 2 = 6$ |

The Printable Princess

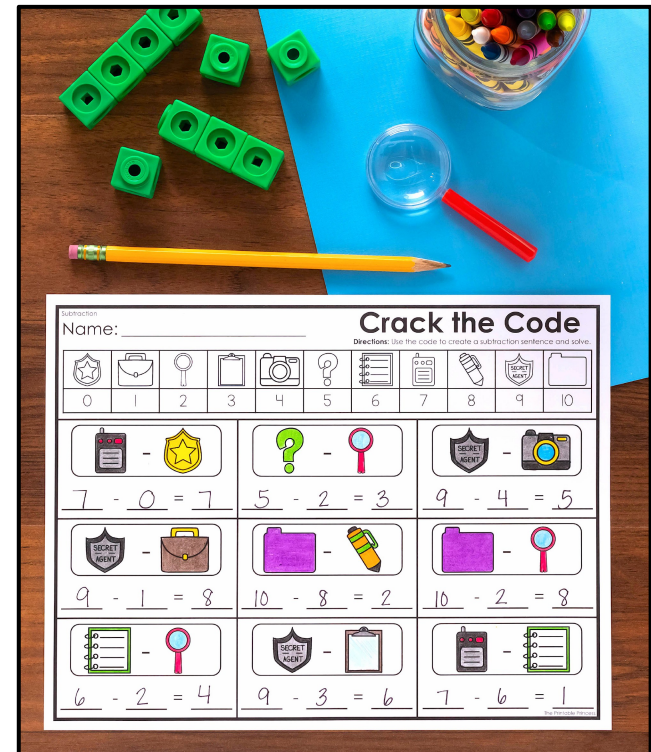

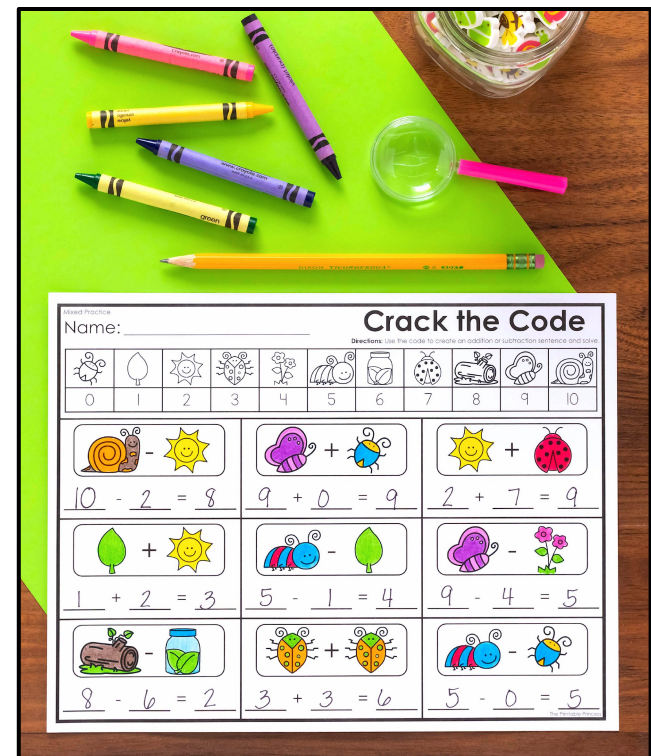

About this resource...

This resource includes 45 no prep activity pages to help students practice addition and subtraction. There are 15 pages for each skill: addition, subtraction, and mixed addition and subtraction. This is a fun alternative to traditional practice pages because students have to crack the code before they solve the problem. There are 15 different year-round themes included.

These activities do not require any prep, which makes them perfect for morning work, homework, sub tubs, time fillers, or math centers.

- Addition Practice Page: [pg 4 – 18](#)
- Subtraction Practice Pages: [pg 19 - 33](#)
- Mixed Practice Pages: [pg 34 - 48](#)

Students will use the code at the top of the page to create an addition or subtraction sentence. They will write the sentence on the line and solve. You may want to provide your students with small manipulatives (such as plastic math cubes or mini erasers) to help them solve the math problems.
