The Printable Princess

About this Resource..

This resource was designed to help students recognize uppercase and lowercase letters. To prep this activity, simply print the page and page style you are wanting to use. Students will identify the target letter at the top of the page. They will search the page to find the corresponding uppercase and lowercase letters.

There are two different levels included. Level one, beginning on page 4, has lines to help students read from left to right. Level two, beginning on page 30, shows the same letters without the guided lines.

You can have students complete these pages with a highlighter, crayon, or bingo dabber. You could also use this as a center and have students cover the corresponding letters with cubes or mini erasers.
