10	8	19	14	8	7	8	20	8	13	8	9

The Printable Princess

# About this Resource..

This resource was designed to help students recognize and quickly identify numbers 0 - 20. To prep this activity, simply print the page and page style you are wanting to use. Students will identify the target number at the top of the page. They will search the page to find the corresponding number and cover, dab, or highlight it.

There are two different levels included. Level one, beginning on page 4, has lines to help students read from left to right. Level two, beginning on page 25, shows the same numbers without the guided lines.

You can have students complete these pages with a highlighter, crayon, or bingo dabbler. You could also use this as a center and have students cover the corresponding letters with cubes or mini erasers.
