Alphabet Activities
Hidden Treasure

Created by The Printable Princess

About this resource...

This resource includes 26 letter mats to help students learn to recognize uppercase and lowercase alphabet letters. Also included is an activity cover page and an optional recording sheet.

To prepare this activity, just print and laminate or slide each page in a page protector. There is a hole in the upper left corner of each page. You can punch a hole and put them on a metal ring for easy use and storage. Students will need manipulatives to cover the letters.

This resource is designed to offer students hands-on and engaging ways to practice letter recognition. You can use these activities in a small group lesson or independent work station. Since the activities do not require a recording sheet they would be great for a morning tub or fast finisher activity.

Students will identify the uppercase and lowercase letter on the treasure chest. They will cover the matching uppercase and lowercase letters. You can have students use one color or kind of manipulative to cover the capital letters and a different color or kind to cover the lowercase letters. Optional: Students will use the recording sheet to record the letters they worked on.
