TEACHER REVIEWS

"Wow! What a great resource that covered everything we learned throughout the year. This was loved by parents and students and I loved being able to provide summer work for them that would help keep all of their learning fresh in hopes to avoid the summer slide." -Julie P.

"This resource was awesome to give my kindergarteners at the end of the school year. They were able to review and stay on top of their skills during the summer break. Will use every year!" -Korrine M.

"This is a great resource to help kids keep engaged and challenged over our summer break! I have them bring it back to me at the beginning of their first grade year and give them a little treat for finishing it!" -Nikki P.
