TEACHER REVIEWS

"Such a simple, easy, ready-to-go resource! I used these in little number booklets, as morning work, and as a quick "fast-finisher" activity!" -Mallory F.

"My students love this resource so much they've asked me to print more for them to do it again! We use daubers and the kids love seeing the colorful circles on the page. Thank you! This is an incredible resource. Also great for math folders for when students finish an activity early." -Jodie S.

"I used these as an intervention activity to send to students who were struggling with number recognition, and this greatly helped them!" -Lauren B.
