CHANGE THE SOUND

A Phonemic Awareness Activity

About this resource...

This activity was created to help students build phonemic awareness skills. This activity works great in a small group setting. It is recommended that these cards be used in an adult-led group before having students complete this activity independently.

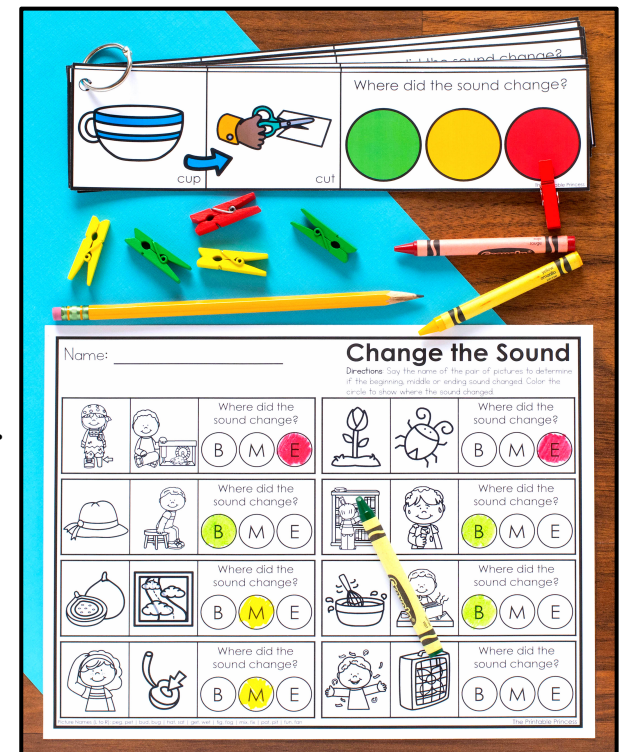

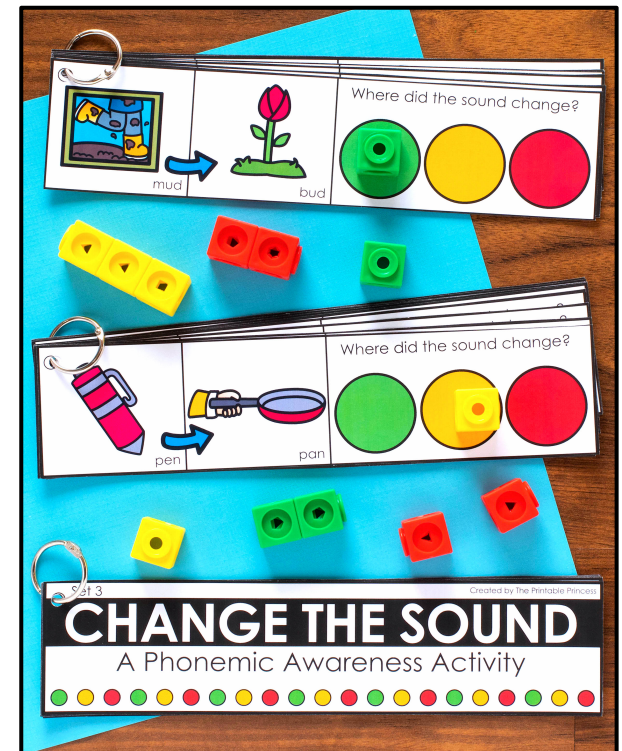

Prep Work: Print, cut apart, and laminate the activity cards. "I Can" visual directions are included on page 4. Optional front covers are included if you'd like to punch holes in the cards and store the cards on a metal ring. There are 90 cards included. You can divide these to make multiple sets.

To make this activity self-checking, you can put a small color-coded dot on the back of each card prior to laminating.

Students will need clothes pins, plastic cubes, or mini erasers to cover their answers.

Directions: Students will say the name of the set of pictures to determine if the beginning, middle, or ending sound changed. They will clip or cover the **green space for beginning sounds**, **yellow space for middle sounds**, and **red space for ending sounds**.

Ten no prep practice pages can be found on pages 37 - 46. These pages can be used as a follow up center activity, extra practice, or homework. Picture names are at the bottom of each page, in case you'd like to send these home for homework.

I Can...

1. Say the name of the pictures to determine if the **beginning**, **middle**, or **ending** sound changed.

☐

cat

→

bat

Where did the sound change?

☒

☐

☐

2. Complete the activity page to show what I know.

Name: _____

Change the Sound

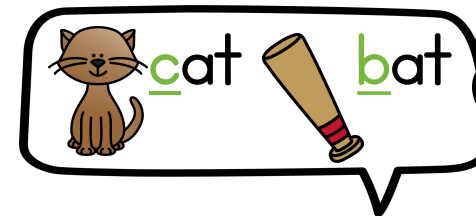

Directions: Say the name of the pair of pictures to determine if the beginning, middle or ending sound changed. Color the circle to show where the sound changed.

 	Where did the sound change? <div style="display: flex; justify-content: space-around;"> <input type="radio"/> B <input type="radio"/> M <input checked="" type="radio"/> E </div>	 	Where did the sound change? <div style="display: flex; justify-content: space-around;"> <input type="radio"/> B <input type="radio"/> M <input type="radio"/> E </div>
 	Where did the sound change? <div style="display: flex; justify-content: space-around;"> <input checked="" type="radio"/> B <input type="radio"/> M <input type="radio"/> E </div>	 	Where did the sound change? <div style="display: flex; justify-content: space-around;"> <input type="radio"/> B <input type="radio"/> M <input type="radio"/> E </div>
