Theme 4: My Pet Dog	<u>36 - 44</u>
Theme 5: Smart Thinkers	<u>45 - 53</u>

About this Resource...

This resource was designed to help students learn to compose the number five. The activities can be used in a teacher-led small group or in an independent math center. You could also use the mats as a morning tub activity or for fast finishers.

To help keep this activity fresh and new for students, there are five themes included. You might decide to use one theme in a teacher led station to show students how to complete the task, and use the other themes for independent work.

Each theme comes with "I Can" visual directions, three recording sheet options, activity mats, and counters. There are also two "open" activity mats for each theme. You can use the counters included or items you have on hand, such as: plastic math cubes, mini erasers, etc.

Let's Make 5

Prep Work: Print, cut, and laminate the activity cards and picture cards. (Blank mats are also included for small group or extra practice.) Print and laminate the “I Can” visual directions page. Print a corresponding recording page.

Note: You could also use plastic cubes, math bears, or small erasers for this activity.

Directions: Students will use the picture cards to make five. They will show their work on the recording sheet by coloring to show how they made five.

I Can...

1. Use manipulatives to make five.

2. Show how I made five.

Name: _____

Cookies and Milk

Directions: Color to show a way to make 5.

 0 and 5 	 3 and 2
 4 and 1 	 2 and 3
 5 and 0 	 1 and 4

I Can...

1. Use manipulatives to make five.

2. Show how I made five.

Name: _____

My Pet Dog
