CVC Word Search Mats

There are 40 CVC Word Search mats included in this activity. There are two types of searches included: same short vowel sounds and mixed vowel practice.

This activity makes a great literacy morning tub or early finisher activity.

To prepare this activity print, laminate, and cut apart the CVC Word Search Mats. Optional front covers are included if you'd like to store these mats on a metal ring. Students will need dry erase markers or manipulatives to cover the CVC words.

Students will identify the words to find, which are located on the right side of the mat. They will find each of the words listed and circle or cover the words.

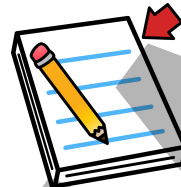

CVC words appear up and down or left to right on the word searches.
