About this packet...

To prepare this activity you'll need to print, cut, and laminate the picture cards. Print the corresponding recording sheets. Note: There are two versions of the recording sheets included. A version with handwriting lines is included with the picture cards. A version without handwriting lines is available beginning on page 85.

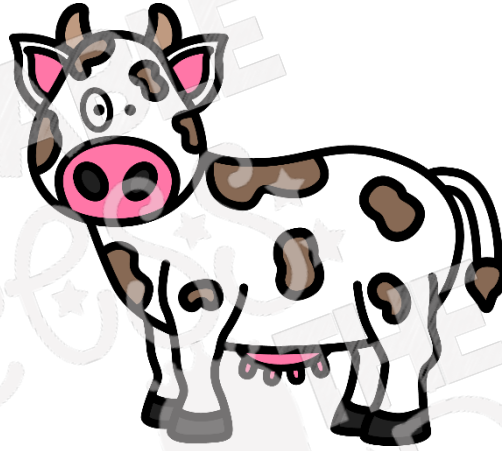

Place cards in various places around the classroom. Students will walk around the room to find the cards. They will match the picture on the card to the picture on their recording sheet. They will copy the word from the card and write it on their paper. Note: You can also have students complete this activity at a center, without walking around the room.

You could also use this activity as a word work station. Supply students with magnetic letters or letter tiles. Students will use the letters to build the words.
